Aspara seed set by GrowGreen - basil

A delicious vegetable, straight from home growing! The aspara by GrownGreen seed set will allow you to create your own basil culture. The seeds are non-GMO and are designed to be planted in a smart aspara pot. What's more, you only need one seed to grow aromatic and healthy basil in 120 days. Basil is a great addition to almost any dish - it goes well with pesto, spaghetti or pizza. In the kit you will find all the accessories you need.
