

## Aluminium inductive charger with Bluetooth speaker and stand

Ref: 8809990449903

Aluminium inductive charger with Bluetooth speaker and stand

Aluminum inductive charger with Bluetooth speaker and stand TIKTAALIK Alu (silver).

Conveniently charge your smartphone and listen to your favorite music with Tiktaalik Alu! The device allows you to charge wirelessly with up to 10 watts of power. It also allows you to play music, so you can enjoy the sounds of your favorite songs wherever you want. You will successfully use the charger as a practical stand for your phone. The Bluetooth 5.0 technology offers a stable and fast connection, and its operating time reaches up to 18 hours.

### Excellent sound quality

Meeting with friends or maybe a barbecue in the garden? Alu speaker will let you enjoy music in almost any situation! The 5-watt power combined with the 360-degree surround system will allow you to take your music experience to the next level. Rich details, clear treble and powerful bass - this and much more is waiting for you with the Tiktaalik speaker. Want to get even better results? Connect two speakers together for stunning stereo sound.

### Wireless charging

Forget about tangled cables and rely on proven solutions! The Tiktaalik Alu Induction Charger offers fast and secure wireless charging with up to 10 watts of power. The device is compatible with the Qi standard - you can charge most smartphones with wireless charging without any hassle. It's also compatible with MagSafe, so you can easily renew the power in your Apple gear.

#### Bluetooth 5.0

Worried about connection problems and interference? Don't be! The speaker uses advanced Bluetooth 5.0, which guarantees reliable, stable and fast signal transmission. Its range reaches up to 10 meters, so you can freely play your favorite music from your smartphone.

#### Even more possibilities

That's not all the advantages of the device yet! The speaker will also allow you to comfortably talk on the phone thanks to the built-in microphone - just connect the speaker to your smartphone! You no longer have to reach for your phone every time to answer or disconnect a call. It's also possible to call back the last caller on the call list - just press the dedicated button.

#### Take it with you anywhere

The lightweight and compact design of the device means you can always have it at hand. It certainly won't take up much space in your bag or backpack. The product will also work perfectly as a stand. You can place your phone on it and comfortably watch YouTube videos or live stream on social media. Thanks to the function of adjusting the viewing angle and rotation, you will easily adjust it to your expectations.

#### With attention to detail

The Alu model was designed with attention to the smallest details. The housing of the device is made of aluminum alloy, which is responsible for the incredible durability of the product. It also features an exceptionally stylish and modern finish, so it will fit perfectly into almost any interior. It also has a non-slip silicone pad that firmly and stably holds the smartphone in one position while charging, and special buttons will make it easier for you to operate the device.
