Ref: 5905316145337

Wireless Adapter Autopro Android Auto / Apple Carplay TIKTAA

TIKTAALIK Autopro Wireless Android Auto / Apple Carplay Adapter (black)

Do you spend a lot of time on the road? Give yourself full comfort and use the Tiktaalik Auto Pro adapter to connect wirelessly to your car. Use the Car Play function and make your car display your personal command center. With the adapter, you can use your phone's functions without having to take it out of your pocket. The product is compatible with Android 12/ iOS 10 or later and supports fast and wireless connection to Android Auto and Apple Car Play. It supports Bluetooth 5.0 technology, operates in the 2.4 GHz WiFi band and works with popular apps such as Netflix and YouTube. The product features a compact design, so it won't take up much space.

Operation without unnecessary cables

Did you forget the cable? Or are you in a hurry and don't have time to connect to Car Play? The Tikaalik adapter will solve these problems once and for all. All you have to do is connect it to the USB port with the cable you will find in the kit and pair your phone with it. From now on, your devices will connect automatically as soon as you enter the car. You no longer need to pull out your phone to access its functions.

Use as you like

The Tiktaalik wireless adapter is a multifunctional tool with which driving will not only be easier, but also more enjoyable. For example, you can conveniently turn on navigation from the car screen, without having to take out your phone and mount it in the holder. You can

also conveniently turn on music and, if necessary, make a call or send a message with the help of a voice assistant. Carrying demanding passengers for whom a long trip in a car seat is a torment? Turn the screen into a private cinema and turn on a cartoon on Netflix to make the trip go by faster for them.

Reliable connection

Use Car Play wirelessly and enjoy stable operation without interference. Auto Pro supports Bluetooth 5.0 technology and can operate in the 2.4 GHz band, so you can forget about annoying wiring. What's more, the use of smart technologies allows you to prevent your smartphone from being discharged. If you leave the vehicle and forget about your phone, Auto Pro will automatically turn off the power to avoid wasting its energy. The product works with iOS and Android (10s/12 and later, respectively), making it widely compatible.

Thoughtful design

The equipment is distinguished by its small size and minimalist design, so it won't take up much space in your car, and you won't have any problems transporting and storing it. A quad-core processor and large RAM and ROM are responsible for fast, lag-free operation, and the safety of use is confirmed by a number of certificates with which Auto Pro has been marked (KC, FCC, CE and ROHS and TELEC). That's not all! There is also an additional USB port at your disposal, which will allow you to display your own videos and photos on the screen. Check out how convenient it is!
