Joyroom Metal Bike Holder JR-ZS265 for Phones (Black)

Joyroom JR-ZS265 bike mount for phones (black)

Are you looking for a universal bike mount for your phone? Joyroom JR-ZS265 is sure to meet your expectations! The product is made of high-quality materials, and thanks to its improved arms it provides the required stability for your phone in any conditions. Silicone finishes protect your device from any shocks, and the adjustable arms allow you to mount a 4.7-6.8-inch smartphone. You can adjust the phone's vertical position within 270°, and also change its position from vertical to horizontal. The mount is suitable for use with bicycles, motorcycles and scooters, and you won't have the slightest problem installing it.

### Robust design

Joyroom JR-ZS265 is an exceptional product that is made of high quality materials. The metal construction provides unparalleled stability. It will not rust and is resistant to damage, so it will surely serve you for a long time. The upgraded arms have been reinforced and supplemented with a layer of silicone, so your phone will be completely safe while riding in any conditions.

### Convenient use

With just one click, the mechanism of the holder will work. The arms will expand so that you can comfortably place your phone in the holder, and then easily adjust their width to fit your phone. You'll do it with just one hand! It will only take you a second to remove your phone from the holder. Installation of the holder on the steering wheel is child's play and will not cause you any problem.

### Customize to your preferences

The holder was created with comfort in mind, so it allows you to position your phone any way you want. The movable head allows you to move your phone in a 270° sagittal axis, so you can tilt it as you need. What's more, the 360° rotation capability will allow you to position your phone both vertically and horizontally. Use the navigation as you like and enjoy complete freedom!
