

Joyroom JR-EL115 Wired Earphones (Grey)

Joyroom JR-EL115 Wired Earphones (Grey)

Joyroom wired in-ear headphones JR-EL115 (gray)

Enjoy listening to your favorite tunes in a new way. The Joyroom JR-EL115 headphones offer high-quality HiFi sound with emphasized bass tones. The 3.5mm gold-plated audio connector allows you to connect them with most devices, and the built-in microphone allows you to talk on the phone. What's more, the ergonomic and lightweight design ensures comfort, and the remote control is responsible for convenient operation.

Ref: 6941237108821

Impressive sound

The Joyroom headphones are equipped with a composite diaphragm and 10mm drivers, providing high-end HiFi sound. With the JR-EL115, you'll hear previously unrecognized details of your favorite songs.

Refined design

Don't be afraid of discomfort when using the Joyroom headphones. They are equipped with silicone pads that are skin-friendly, and the lightweight design further contributes to long-lasting comfort. In addition, the sturdy 1.2-meter TPE cable enhances freedom of use, and a special filter prevents dust from entering the headphones.

Built-in microphone

Another advantage of the Joyroom JR-EL115 headphones is the high-sensitivity built-in microphone. It allows you to talk on the phone comfortably - you don't have to worry about interference. Be assured that your caller can hear you perfectly.

Easy to use

Using the Joyroom headphones is made easy with a remote control integrated into the cable. From it, you will answer/reject/end an incoming call and customize the operation of the music player. Conveniently stop/resume playback, adjust volume and skip songs.
