Now you can easily charge your smartphone whenever you want! The Joyroom JR-L007 powerbank allows you to charge with a maximum power of up to 22.5W and supports wireless charging of up to 15W. Its capacity is 10000 mAh, so you can easily charge your smartphone several times. It stands out for its wide compatibility, as well as its lightweight and compact design - so you can always have it within easy reach. It has a built-in Lightning cable with a blue light indicator to let you know the operating status. It also ensures safe use.

### 10,000 mAh capacity

You no longer have to worry about the powerbank discharging at an unexpected moment! It has a capacity of up to 10,000 mAh. This means that you will successfully renew the energy in your smartphone at least several times. It can charge an iPhone 14 Pro up to 2.5 times or an AirPods Pro2 up to 13 times!

### Different ways of charging

The Joyroom powerbank allows both wired and wireless charging. The device supports fast charging with up to 22.5W - so you only need a few moments to charge your chosen equipment. Wireless charging is also at your disposal with a maximum power of up to 15W.

Up to 4 devices at the same time

Forget about the long wait until your device is ready to use! Now you can freely charge up to 4 devices at the same time. The Powerbank is equipped with a USB-C and USB-A port and also has a built-in Lightning cable. However, that is not all! It also supports inductive charging. So you can use it to conveniently restore power to your Apple, Samsung or Huawei smartphones. You can also use it to charge your smartwatch, wireless headphones or tablet.

The perfect travel companion

Going on holiday? Or are you facing a long train journey? Take your Joyroom powerbank with you everywhere! Its compact design means it won't take up much space in your bag or backpack. The JR-L007 also complies with all international airline transport standards, so you can take it with you on the plane.
