Joyroom JR-HL1 Wireless Headset (black)

Joyroom JR-HL1 wireless headphones (black)

Want to lose yourself in the music while listening to it on headphones? Joyroom's gear will give you an unforgettable experience and surprise you with its excellent bass quality. Plus, you can use them exactly as you like, as they offer wired and wireless connection via Bluetooth 5.0.

Reliable hardware

What sets the Joyroom gaming headphones apart is their incredibly clear sound and shocking bass. What's more, they've been equipped with sound isolation material to make your musical experience even better. With Joyroom you will lose yourself in your favorite songs.

Various connection

With Joyroom headphones, you can listen to your favorite songs the way you like them best, as they have the option to be connected in two ways. The wired connection will be perfect for fans of traditional solutions, while if you want to be free of tangled cables, choose a wireless connection via Bluetooth 5.0.

Large battery

For the utmost convenience, the Joyroom headphones are equipped with a large 300 mAh battery. With it, you can play music

continuously for as long as 18 hours. Don't worry, however, when the battery runs out, as the headphones will be ready for use in just 3-5 hours.

Comfort of use

The Joyroom headphones are designed for hours of listening to music, so they are very lightweight and comfortable. You no longer have to worry about sore ears, as Joyroom will take care of your comfort. In addition, this gadget is very easy to use. All the control buttons are located on one earphone, so you will be able to control the device comfortably with one hand.

Comfortable wearing

Joyroom headphones will adapt to your needs. The headband is adjustable, so you'll be able to fit it perfectly to your head. Moreover, it was created from a skin-friendly material. This gadget will delight you not only with excellent and clear sound, but also with its unique design.
