Powerbank Pisen BL-D68LS 10000mAh 22.5W (black)

Pisen BL-D68LS 10000mAh 22.5W Powerbank (black)

Have peace of mind that the devices you need will never run out of energy to function. The Pisen BL-D68LS powerbank features a 10,000mAh capacity and supports various fast charging standards. It also allows you to charge up to three devices simultaneously and provides up to 22.5 watts of power. The device also has a built-in LED screen and guarantees safe use.

10,000 mAh capacity

No more charging the powerbank after every use. The Pisen device features a capacity of up to 10,000 mAh. This means that you can use it to charge your smartphone, wireless headphones or tablet even several times! The product is also equipped with a digital LED display, which will allow you to conveniently check its charge level. Just take a look!

Fast charging

With the Pisen BL-D68LS you'll be charging your devices in no time. The powerbank supports most popular fast charging standards, including PD3.0 or QC3.0. No more waiting too long for your tablet or phone to be ready to use again. Take advantage of modern technology and save time!

Safe use

The BL-D68LS not only enables fast, but also safe charging. Thanks to its Fit charge technology and intelligent chip, it automatically adjusts the current parameters to the requirements of the devices connected to it. In this way, it protects their batteries from damage. The powerbank is also protected against overheating, short-circuiting, overvoltage, overcharging and over-discharge.

#### Several available ports

The Powerbank is equipped with 4 ports - 2 USB output ports, a micro USB input port and a USB-C input/output port. So you can conveniently charge up to 3 devices at the same time! Forget about having to wait for one device to be ready before you charge another. Plug your phone, tablet and headphones into the powerbank - say goodbye to limitations with Pisen!
