Universal remote control BroadLink/BestCon RM4C PRO

BroadLink RM4C Pro universal remote control

The BroadLink RM4C Pro infrared universal remote control allows you to remotely control various IR devices in your home. It is compatible with equipment from many manufacturers, and you can also pair it with Google's smart assistant or Alexa. The product is easy to use, works within a 360° range and supports 315/433 MHz frequencies. It stores IR codes in the cloud. Moreover, the special Broadlink app provides convenient control of the devices.

Broad compatibility

With the BroadLink RM4C Pro remote control, you can conveniently control almost all your IR devices. The product supports TVs, audio equipment, and even fans. At the same time, it is compatible with most popular brands such as Sony, Samsung, Panasonic and Philips, for example. So you don't have to worry about it not working properly with your devices.

Remote control, creating schedules, timers and scenes

The remote control works with the dedicated Broadlink app and provides many possibilities for remote control of your devices. Not only can you turn them on and off remotely, you can also set timers and schedules for them. And that's not all! Create entire scenarios for certain devices and have them start up in predetermined situations, like when you come home or turn on the lights. The choice is yours!

Voice control

The possibilities for remote control with the BroadLink remote don't end there. The product is compatible with Amazon Alexa and Google Assistant, which means that when you pair it with your smart assistant of choice, you can control your devices by voice. Want to turn on the lights or turn off the TV? Speak a simple command and watch your home adjust to you.

Powerful cloud storage capabilities

The device supports manual learning of IR code. The recorded data is stored in the cloud. This means you can almost always access them conveniently. They are also updated in real time. The remote stores about 50000 IR codes, which gives you almost unlimited possibilities - you can connect all your compatible devices to it without much trouble.

Reliable connection

Thanks to the modern FastCon technology, you can enjoy a simple, fast and stable connection between the remote control and your IR equipment. Forget about complicated configuration and problems with signal transmission quality. BroadLink enables instant, easy and reliable pairing in almost any situation. All you have to do is reach for your smartphone and operate your devices the way you want!

Product Parameters

Model

RM4C Pro

Communication

Wi-Fi 802.11 b / g / n (2,4 GHz)

Power consumption

≤ 1W

Power supply

AC100 □ 240 V, AC 50/60 Hz

Input voltage

5V DC

IR frequency

38 K

IR Control Range

≤8 m (typical)
RF Control Range
50 m (line of sight)
RF frequency
433 MHz, 315 MHz
Size
85x50x65 mm
Weight
95 g
