Adapter Lightning - HDMI Joyroom S-H141 (white)

Joyroom S-H141 Lightning - HDMI Adapter (white)

Increase the range of your equipment's capabilities and turn your home into a movie theater with Joyroom's Lightning to HDMI adapter. The S-H141 supports plug & play and allows you to play 1080p videos from your smartphone or tablet on the big screen. The device provides a screen refresh rate of 60 Hz, so you'll enjoy smooth, noise-free operation and perfect synchronization of video and audio.

Wide compatibility and Plug & Play

The Lightning to HDMI adapter is widely compatible with many popular devices. With its help, you can connect your smartphone or tablet to the projector, among others, and play movies on the big screen. What's more, because the Joyroom adapter supports Plug & Play, you don't need to install additional software to enjoy the device's performance.

High-quality picture

Create your own home theater with the Joyroom adapter. The device provides HD picture in 1080p resolution. In addition, the refresh rate of the screen is 60 Hz, so you'll enjoy perfect synchronization of picture and sound. The movie-watching experience is also influenced by the chip, which guarantees a stable connection without interference.
