Ref: 6973696562609

Smart Wi-Fi Thermostat Meross MTS200HK(EU) (HomeKit)

Meross MTS200HK Wi-Fi smart thermostat

The modern Meross MTS200BHK Wi-Fi smart thermostat will allow you to conveniently control the temperature in your home. Compatible with most popular electric underfloor heating systems, it stands out for its easy operation and exceptional comfort. It works with Apple HomeKit, Amazon Alexa, Google Assistant and SmartThings. It stands out for its accuracy of 0.5°C, and with its scheduling function, it reduces heating costs.

### Full control

The Meross MTS200BHK Wi-Fi Smart Thermostat is the perfect way to manage the temperature in your home. The device is extremely precise and provides an accuracy of 0.5°C. Importantly, the thermostat has a function that detects an open window - in which case it automatically stops heating, which helps reduce bills.

### Convenient operation

The thermostat is compatible with Apple HomeKit, Amazon Alexa, Hey Google and Smart Things - so you can conveniently manage its operation from your smartphone. All you need is a device running iOS 13.0 and above or Android 6.0 and above. You don't even have to get up from the couch to change the selected temperature, plus you can create schedules to optimally match its operation to your family's lifestyle.

#### Note

The thermostat works with popular underfloor heating systems and is not compatible with boilers and water heating systems.

Specification:

#### Manufacturer

Meross

#### Model

MTS200HK

#### Version

EU

#### Wireless standard

IEEE 802.11 b/g/n, 2.4GHz

#### Certifications

CE, RoHS, WEEE

#### System requirements

iOS 13.0 or later, Android 6.0 or later, Wi-Fi connection

#### Operating temperature

0°C-40°C

#### Storage temperature

-40°C-70°C

#### Operating ambient humidity

10%-90% (non-condensing)

#### Storage ambient humidity

5%-90% (non-condensing)

#### Power consumption

□ 1 W

#### Accuracy

±0.5 °C

#### Setpoint range

5-35°C

#### Input voltage

100-250V 50/60Hz

#### Output voltage

16A
