Nicefeel Deskopt water flosser 600ml with head set FC2520 (w)

Nicefeel FC2520 stationary water flosser 600ml with nozzle set (white)

With the Nicefeel FC2520 water flosser you can take even better care of your teeth and remove impurities more effectively. The device allows you to adjust the pressure and is very easy to use. It is equipped with a small LED display and a 600ml water tank. What's more, its noise level does not exceed 70dB. The kit also includes 7 interchangeable nozzles.

Effectively eliminates dirt

Did you know that simply brushing your teeth with a regular toothbrush may not be enough? With a water flosser, you can thoroughly clean even hard-to-reach areas and effectively remove plaque and food debris, among other things. The device features a water flow rate of 310ml/min and a maximum pressure of 120psi. Now you can take even better care of your oral hygiene!

Adjust the pressure to suit your needs

Do you want maximum efficiency? Or do you have sensitive gums and prefer your water flosser to work more gently? The FC2520 is the right irrigator for almost every situation! The device allows you to adjust the pressure using the buttons on the handle. Lower levels provide from 20psi to 50psi and higher levels from 80psi to 120psi. The selected value will be displayed on the water flosser's built-in LED screen.

Carefully considered design

The water flosser features a modern, stylish design, so it can be a real highlight of any bathroom. The device also features IPX3 water resistance and its handle has an IPX7 rating - accidental splashing will not pose a threat to it. An additional advantage of the FC2520 is the large 600ml water tank. In addition, the irrigator automatically stops working after 3 minutes - don't worry about forgetting to switch it off.

7 tips included

The kit also includes 7 interchangeable tips for the irrigator. The orthodontic tip is suitable for people who use braces and the periodontal tip is suitable for diseased gums. You will also find 3 standard tips in the pack, which you can successfully use on a daily basis. Save them for yourself as a spare or give them to your loved ones! A plaque remover and a tongue cleaner tip are also available.
