Cable to Micro USB-A / Surpass / 1.2m Joyroom S-UM018A11 (wh

Cable for Micro USB-A / Surpass / 1.2m Joyroom S-UM018A11 (white)

Fast charging, lightning-fast data transmission and a length just right for use at home or in the office - all this will be provided by the Joyroom cable. The product is distinguished by its sturdy construction, it is fully safe for the devices being charged, and the 2.4 A intensity allows you to replenish your phone to 60% in only 40 minutes, saving you time and electricity.

Fast and reliable

Don't like to wait? So do we! That's why the Joyroom S-UM018A11 cable transfers even large files at 480 Mbps. What's more, it works with as much as 2.4 A, which means it will only take you a moment to charge your phone. You won't be waiting indefinitely for your devices anymore.

Full protection for your devices

Instant charging generates much less heat. This solution helps protect the battery from overheating. The cable uses a smart system - when the battery reaches 80%, the charging speed slows down, so you don't have to worry about your devices overheating.

Thoughtful design

The cable is made of high-end materials, which is why it is so durable. The reinforced core ensures better conductivity, and the additional

braid effectively protects the cable from damage and tangling. As for the connectors - they were created from a single piece of metal, so they do not deteriorate and guarantee a stable connection to the device. The reinforced ends of the cable are resistant to bending, pulling, etc. Enjoy a fully functional cable for a long time!
