Ref: 6956116733438

Cable to Micro USB-A / 2.4A / 0.25m Joyroom S-UM018A9 (black)

Cable to Micro USB-A / 2.4A / 0.25m Joyroom S-UM018A9 (black)

Convenient and fast charging of your devices will provide you with Joyroom cable. The product is distinguished by its robust construction and wear resistance, as well as wide compatibility with Apple products. It supports fast charging and does not generate high temperatures, so you can freely use your smartphone while it renews its energy. The cable also allows easy data transmission.

Instant charging

The cable allows charging with as much as 20 watts of power, so you won't be waiting long until your device is ready to use again. It only takes 30 minutes to charge the iPhone 13 Pro to 65%. The use of a smart chip, allows charging with such high power without generating high temperatures, so you don't have to worry about the safety of your phone!

Robust construction

The cable is extremely resistant to wear and tear. Highly flexible PVC is used for its construction, and the ends are reinforced, so the cable is resistant to bending, pulling, etc. What's more, the improved connectors are even more resistant to repeated plugging/unplugging, so the cable will successfully serve you for a long time.
