Wireless earphones TWS with AIROHA chip Foneng BL105 (white)

AIROHA Foneng BL105 (white) TWS wireless headphones with AIROHA chip.

Looking for the perfect headphones for yourself? The Foneng BL105 will work perfectly not only for listening to music, but also for making calls. They will delight you with excellent sound and a constant and stable Bluetooth 5.2 connection. With Foneng nothing will limit you anymore!

Stunning sound quality

Foneng BL105, despite their small size, will delight you with their excellent sound. They stand out with stunning high-definition stereo sound. This makes it possible for you to lose yourself in your favorite songs no matter where you are.

Comfort of use

The BL105 headphones were created with comfort in mind, so they are equipped with a large rechargeable battery that allows them to last up to 4.5 hours. In addition, these headphones will detect your ear. What does this mean? Music will play while you have them on, but when you take them out of your ears, playback will automatically stop. What's more, a pop-up function is also at your disposal.

Wireless connection

You no longer have to worry about interference or music interruptions. Foneng headphones use Bluetooth 5.2 technology, which ensures

a constant and stable connection. What's more, you can also talk through them without any problem, as they are equipped with a microphone.
