

## Projector BYINTEK K45 Smart

Projector BYINTEK K45 Smart

Ref: 725889900097

### BYINTEK K45 Smart LCD projector/projector

The BYINTEK K45 Smart projector uses LCD display technology and provides excellent image quality even in 4K. It allows vertical and corner keystone correction, and offers electronic zoom and electronic focus. It is compatible with Android 9.0 and supports WiFi-display technology. In addition, an array of ports allows you to connect the projector to multiple devices.

### On the big screen

The native resolution of the BYINTEK K45 Basic projector is Full HD 1920x1080 p. So you can enjoy high picture quality and create a home theater for you and your loved ones. The maximum projection area reaches 230", and the electric focus and zoom ensure comfortable use. The projector also has 2 5W speakers that guarantee great sound quality thanks to Dolby technology.

### For gamers and more

The BYINTEK K45 Smart is compatible with Android 9.0 and supports WiFi-display technology, making it perfect for movie buffs and gaming fans alike. This is because you can project your favorite game on the big screen, as well as enjoy Netflix, Prime Video, Youtube and many other apps.

### Wide compatibility

The device is equipped with two HDMI ports and two USB 2.0 ports, as well as AV and Mini Jack 3.5mm ports at your disposal. This makes the projector stand out for its wide compatibility and you can easily connect it to your computer, PS4 console, U drive and many other devices.

#### Easy operation

The projector offers the ability to quickly correct the trapezium, so you'll eliminate errors made when setting up the projector. Buttons that make it easy to manage the device's functions are also a plus, as is the included remote control.

#### Included

Projector

Remote control
