Foneng T28 Wired Earphones, Lightning, with remote Control (

Foneng T28 wired lightning headphones (white)

Opt for Foneng's unconventional solution and enjoy natural sound with the T28 headphones. The equipment provides HiFi quality sound, supports Bluetooth 5.0 connectivity and comes with a 120 cm long cable with Lightning connector to conveniently renew your headphones' energy. The remote control integrated into the cable allows you to operate it freely.

High-end sound

Experience how good your favorite songs can sound. Foneng headphones guarantee high-end HiFi quality sound, so you'll feel like you're attending a music festival anywhere.

Bluetooth 5.0

The T28 supports Bluetooth 5.0, which ensures stable and reliable transmission. Now nothing will get in your way while playing games, watching movies and listening to music.

Convenient operation

The 1.2-meter cable provides freedom of movement when using the headphones and allows you to conveniently renew your equipment's power. The remote control integrated into the cable allows you to efficiently adjust the volume, change the song, and answer an

incoming call. Experience how convenient it is!
