Mechanical keyboard Dareu EK868 Bluetooth (white-blue-yello

Dareu EK868 Bluetooth Mechanical Keyboard (white-blue-yellow)

The EK868 keyboard is able to meet the expectations of even the most demanding gamers. It is equipped with a long-lasting rechargeable battery, which can be recharged using the included USB cable, and 68 keys with a life span of up to 50 million clicks, whose height has been halved (to 5.52 mm). Thanks to the use of high-quality materials, the device is extremely durable, yet comfortable to use. The keyboard focuses on the most necessary functions and keys, so it is devoid of a numeric keypad, reducing the required space by 40%.

Reliable mechanical switches

The keyboard is designed to provide you with comfort and freedom of use. Its mechanical blue switches are distinguished by slightly louder operation and guarantee smooth, reliable response. What's more, at its thinnest point, the thickness of the keyboard is just 15 mm, which means a more natural wrist position.

2 connection modes: wired or Bluetooth

You can connect the keyboard to your computer in 2 ways. The Bluetooth wireless connection allows you to pair it with as many as 3 devices at once, and a built-in button allows you to switch between them. You will find a similar solution useful at work, for example. You can also connect the EK868 with a USB-C cable.

Capacious lithium battery

The keyboard has a built-in 2000 mAh lithium battery. If you turn off the backlight, it can run for up to 30 days on a single charge. When the backlight is on, the device's operating time is up to 6 days. It takes about 6 hours to charge the battery. The keyboard can also be used while charging.

Additional amenities

The keyboard is equipped with a physical switch that is used to switch devices and systems. Magnetic stands allow it to be raised 3.5 mm, and a special aluminum alloy panel provides the product with greater durability and corrosion resistance. EK868 is also distinguished by its small size - it won't take up too much space on your desk.
