Wireless earphones TWS EarFun Free 1S (black)

Ref: 6974173980053

### TWS EarFun Free 1S headphones (black)

The EarFun Free 1S are wireless headphones that let you explore the unknown details of your favourite tracks. They are equipped with 7mm drivers that guarantee fantastic sound quality. Built-in microphones and ENC technology allow you to talk freely, no matter where you are. Their operating time reaches up to 30 hours. The headphones are easy to use with intuitive touchpads and the app gives you access to additional functions. The ergonomic design of the headphones provides you with unparalleled comfort, even during prolonged use.

### Immerse yourself in music

With EarFun, you don't even have to leave your bed to feel like you're at a concert. The headphones feature dynamic 7-millimetre composite drivers that deliver high quality sound. So you can enjoy deep bass, rich detail and stunningly clear sound.

### Uninterrupted signal transmission

Forget about connection problems! The headphones use the innovative Bluetooth 5.0 connection, which is responsible for a fast, stable and reliable connection. What's more, its range extends up to 15 m, which will increase your freedom of use.

### Convenient touch control

Operating the headphones is exceptionally simple and convenient - no more reaching for your smartphone every time! Free 1S features precision touchpads that you can use to adjust the volume, answer and reject calls, manage your music player and launch the intelligent voice assistant. Now all the most important functions are at your fingertips - just a few touches away!

#### Up to 30 hours of music listening

Listen to your favourite songs for as long as you like. The built-in rechargeable battery provides up to 6 hours of use. The included case will allow you to extend this time to up to 30 hours! The headphones also support fast charging, meaning you only need 10 minutes of charging to keep them running for another 2 hours. What's more, you can charge the case using both a USB-C cable and wirelessly.

#### Made for talking

Talk on the phone wherever you want - now there's nothing standing in your way. Each handset has 2 built-in microphones that accurately capture your voice. They also use advanced noise-cancelling technology that filters out all unnecessary background noise. This means you can make phone calls with ease, even in a crowded train station or shopping mall - your caller will be sure to hear what you have to say.

#### The comfort of your dreams

Enjoy maximum comfort. The headphones fit perfectly in your ears and do not cause discomfort or fatigue. Each headphone weighs just 4.4g, so you won't even feel them in your ears. They are also IPX7 waterproof, so drops of rain or sweat pose no threat to them. You'll find 3 pairs of interchangeable ear pads in different sizes, so you can tailor the headphones to your needs even better.

#### More possibilities with the app

Gain access to additional headphone features with the EarFun Audio app. The free app is available for both Android and Apple users. With the app, you can change the EQ settings, check the battery charge status, and change the function of the touch panels.
