

Memory card SanDisk ULTRA ANDROID microSDXC 64 GB 140MB/s A1

Ref: 619659200541

Memory card SanDisk ULTRA ANDROID microSDXC 64 GB 140MB/s A1

SanDisk ULTRA ANDROID microSDXC 64 GB 140MB/s A1 Class 10 UHS-I memory card + ADAPTER

The SDSQUAB-064G-GN6MA memory card from the producer SanDisk is a robust and reliable solution for users of mobile devices running the Android operating system. This card offers a capacity of 64 GB, allowing you to store a large number of photos, videos, music and other Full HD4 files.

Fast data transfer

The card measures 1.02 × 14.99 × 10.92 mm, making it small and handy to carry. A read speed of up to 140 MB/s allows fast data transfer between devices, which is especially important for large media files. What's more, the card also comes with an adapter that will enable you to use the memory card in other devices such as laptops and cameras.

Application

The SanDisk memory card is compatible with Android devices that support microSDXC, which means it can be used in many smartphones, tablets and other mobile devices. With the SanDisk app, available on the Google Play shop, you can easily view, transfer and manage your files, making it quicker to work with your data and easier to use the card.
