Exceptional sound

Transport yourself to the world of music with 1MORE. Quad Driver headphones are equipped with 4 high-end drivers that provide rich details and crystal clear sound. Are you a rock and roll lover? Do you appreciate original sounds? Maybe you focus on vocal layering? No matter what your tastes are, Quad Driver will bring out the best from any song! The high quality sound is confirmed by Hi-Res Audio certification.

Uninterrupted conversations

Quad Driver headphones offer a high-end MEMS microphone that will accurately record your voice, even in adverse conditions and extremely crowded places. Abandon worries that your interlocutor won't hear you and talk freely with loved ones.

Remote control

The remote control integrated into the cable will allow you to comfortably answer, hold and reject incoming calls, as well as manage your music player. For Android-based phones, it is also possible to adjust the volume level. Find out how convenient it is!

Thoughtful design

Thanks to the ergonomic design, the headphones lie perfectly in the ears without causing discomfort. The equipment is made of high-quality materials, such as aircraft aluminum, so it is extremely durable and guarantees high sound quality. Also noteworthy is the stylish and classic design, which will delight most users.
