

Golf Laser Rangefinder HOTO KE1000

Golf Laser Rangefinder HOTO KE1000

Ref: 6974370801090

HOTO KE1000 golf laser distance meter

Do you want to measure distances accurately during a golf game? The HOTO laser rangefinder will be the perfect solution for you! With it you can measure distances up to 1000 metres or 12000 yards. What's more, it will allow you to magnify 6 times! It will also be very comfortable to use, thanks to its small size and light weight.

Long range

What sets the HOTO rangefinder apart is its long measuring range. You can take readings of up to 1,000 metres or 1,200 yards with a tolerance of ± 1 . What's more, you will receive immediate feedback in as little as 0.5 seconds! With HOTO you will get precise measurements in the blink of an eye.

Excellent image quality

The HOTO rangefinder guarantees you excellent image quality. Thanks to the special dial, you can easily change the focus and adjust the focal length with just one hand. What's more, you can use the 6x optical zoom to see distant targets. Nothing escapes your attention now!

Multitasking

Mobilemax - Gadgets and Accessories

Rua Vasco da Gama n61, 8005-411, Estoi - Faro, Portugal

The HOTO laser rangefinder will prove its worth in many situations. It is ideal for golf and soccer events, but not only! It is also ideal for hiking in the mountains or for leisure activities in forests and parks. Stow it in your backpack and always be ready!

Two control buttons

The HOTO is easy to operate using two buttons. With the work button, you will adjust the tilt compensation and also set your priority objects, so they will be separated from the background and the whole measurement will be faster. The readout button will allow you to take single or multiple measurements. Furthermore, for easier analysis, this device supports two units: metres and yards.

Comfortable to use

The HOTO laser distance meter was developed with comfort in mind. You can easily operate it with two buttons, giving you quick and easy access to all functions. What's more, it is distinguished by its compact design, which you can fit in one hand. In addition, you can free your hands thanks to the magnetic casing that allows you to place the equipment on metal objects.

Clever design

The HOTO rangefinder is equipped with a large 2000 mAh battery. Thanks to this, you will be able to take even more than 1,000 measurements! You don't have to worry about your device running out of power, as you can easily charge it with a USB-C cable. What's more, transporting and storing it will be more convenient with the included carrying case.
