Earphones TWS 1MORE Aero, ANC (black)

1MORE AERO Headphones (black)

1MORE Aero headphones will meet the expectations of even the most demanding users! They feature 10mm drivers that provide high quality sound, and Smart Loudness technology will let you enjoy fantastic sound quality regardless of the volume level. They also support head movement tracking technology and QuietMax noise reduction system. They allow you to make phone calls freely in almost any conditions thanks to high-quality microphones with DNN algorithm. They also offer 4 ANC modes that will fully immerse you in the music. The app lets you choose from 12 EQ settings, and they have a runtime of up to 28 hours. The headphones are distinguished by their ergonomic and waterproof design.

Amazing sound quality

Fall in love with music all over again. The headphones are equipped with 10-millimeter drivers, which are responsible for high sound quality. As a result, you can enjoy a wealth of detail, a perfect balance of bass and treble, and powerful, deep bass. What's more, you can immerse yourself in music wherever you are, thanks to the patented QuietMax noise cancellation technology, which eliminates unwanted background noise by up to 42 dB. The Aero model also uses Smart Loudness technology to deliver a rich music experience at any volume.

Tailored to fit any situation

With the Aero headphones, you'll fully focus on the sounds of your favorite songs even in a crowded and noisy place. The headphones use advanced ANC technology, which offers 4 different modes. This makes it easy to adapt them to almost any situation. Adaptive ANC automatically adjusts the level of noise cancellation to the environment you are in. When driving in a car or on the subway, ANC Strong mode will be ideal, while ANC Mild mode will give you the maximum level of comfort when visiting a coffee shop. On extremely windy days, WNR mode, which automatically suppresses wind noise, will work well. Prefer to stay in touch with your surroundings? Choose Transparency mode!

Synchronize your every move with sound

Take your immersion level to the next level. 1MORE Aero headphones support specially designed technology for tracking dynamic head movements, which ensures that the sound stays where it should, even when you move your head. This will make you feel like you're at a real concert! Provide yourself with an unforgettable musical experience or immerse yourself even more in the gameplay!

Noise-free conversations anywhere

Talk freely on the phone, no matter where you are. A crowded shopping mall or maybe a train trip? Now it's not a problem! Each handset has up to 3 built-in microphones, which, combined with the DNN algorithm, effectively separate your voice from ambient noise. They are also distinguished by high immunity to interference. With Aero headphones you can be sure that you and your interlocutors will hear each other without the slightest problem!

Reliable connection

The 1MORE Aero headphones use Bluetooth 5.2, which guarantees a stable, fast and uninterrupted connection to the equipment of your choice, with lower power consumption. What's more, you can connect them to two devices at the same time and freely switch between them. Now you can easily switch playback between working on your laptop and talking on the phone!

Up to 28 hours of operation

Forget about limitations and enjoy the long runtime of the headphones! The built-in battery provides up to 7 hours of uninterrupted operation when ANC mode is off or up to 5 hours when it's on. You can also extend their runtime to as much as 28 hours with the charging case. The headphones also support fast charging - so just 15 minutes of charging is enough to keep them serving you for another 3 hours. Plus, thanks to Qi technology, you can conveniently charge them wirelessly.

The perfect everyday companion

Give yourself the comfort of your dreams while listening to music! The lightweight design of the headphones means you won't even feel you have them in your ears - each headphone weighs just 4.9 grams. They also boast IPX5 water resistance, so sweat or rain won't prevent you from listening to your favorite songs. What's more, at your disposal is the dedicated 1MORE Music app, which offers up to 12 EQ settings.

Touch control

Now you have all the most important functions at your fingertips! The Aero headphones are equipped with precise touch panels for easy operation. Using them, you can conveniently control your music player, adjust the volume or manage incoming calls - no more need to reach for your smartphone every time. You can also instantly launch a smart voice assistant - just touch the touch panel three times!
