

## Smart Door Window Sensor WiFi NEO NAS-DS07W TUYA

Ref: 6924715900667

Smart Door Window Sensor WiFi NEO NAS-DS07W TUYA

Door and window opening detector WiFi NEO NAS-DS07W TUYA

Do you want to make your home even more secure? The NEO NAS-DS07W door and window opening sensor will help you! If someone tries to enter a room, you will know immediately - you will receive a notification on your phone. The product does not require any additional gateways - it connects via Wi-Fi, in the 2.4 GHz band. What's more, it is powered by USB and features a compact design. It also features compatibility with TUYA / Smart Life, Amazon Alexa, Google Assistant and IFTTT.

For the sake of safety

Worried that someone will try to enter your home in your absence and you won't know anything about it? The NEO sensor will help you solve this problem! The device instantly detects the opening of a door or window - if something like this happens, you will immediately receive a notification on your phone. So you can keep everything under control and react to worrying situations immediately! But it doesn't stop there - if someone tries to damage the sensor and removes its battery, you'll know about it too - you'll receive a push message.

Connects via Wi-Fi

To use the sensor, you don't need any additional gateways or other devices. The NAS-DS07W supports connection via Wi-Fi (in the 2.4 GHz band). As a result, you can enjoy fast, stable signal transmission and much more convenient use of the product. Forget about delays,

stuttering and similar problems!

#### Improved design

Durable, flame-retardant materials have been used in the construction of the sensor, which translates into its durability and resistance to damage. It will serve you well for years to come! The device also has a built-in LED indicator and is very easy to install. It is also distinguished by its compact, minimalist design. In addition, the product is powered by USB - you do not need to buy batteries for it.

#### Compatibility with various platforms

The sensor is compatible with several smart home management apps. It works seamlessly with platforms such as TUYA / Smart Life, Amazon Alexa, Google Assistant, Tmall Genie and IFTTT, for example. So you can conveniently check the status of your device, connect it to other equipment and change settings. You will also receive useful notifications.

#### Brand
