Smart Plug Matter NEO NAS-WR15WM WiFi 16A FR

Want to make your home smarter? The Smart Plug can make it possible for you! It allows you to conveniently control your home appliances. What's more, with the help of a dedicated app you have the possibility to create smart schedules or set a countdown. For added convenience, it also has voice control capabilities, as it shows compatibility with Google Assistant and Amazon Alexa. Connecting to it won't be a hassle either, as it supports 2.4 GHz wireless connectivity.

Smart home

With Smart Plug, you can easily create your dream smart home! You can conveniently control the device from your phone, which means that you will have control over your home appliances, no matter where you are! You can easily connect devices such as a washing machine, fan, refrigerator, TV, lamp, microwave, but not only! Have trouble-free control over everything!

Comfort of use

Do not be afraid of complicated configuration and installation. You will connect with Neo socket quickly and easily! All you have to do is scan the QR code on the device. What's more, it works with the most popular platforms such as Tuya, Apple Home, Google Home and Amazon Alexa. It also makes it possible for you to operate it with your voice. With Neo, there is no room for inconvenience!

Easy control

You can control the smart outlet from your phone. Thanks to a dedicated app, you'll be able to create schedules - easily plan when a particular device should turn on or off. What's more, you can also start a countdown so that, for example, your fan will turn off in 11 minutes. It also allows you to control energy consumption in real time.

Security

The Neo smart outlet is also a guarantee of safety. It has been equipped with a smart child lock function, so you can be sure that your youngest family members will be properly protected from electric shock. What's more, when the power at home is turned off, your settings will be retained. This not only gives you a sense of security, but also ensures your comfort.
