

Smart Light Switch WiFi NEO NAS-SC02WE 2 Way

Ref: 6924715900711

Smart Light Switch WiFi NEO NAS-SC02WE 2 Way

WiFi Light Switch NEO NAS-SC02WE Dual

Want to control the lights in your home with ease? The NEO Wi-Fi light switch can help you do just that! You can control it via a 2.4GHz network or traditionally, with touch. What's more, thanks to a dedicated app, you'll be able to turn on or off the light in the selected room, even when you're away from home. Made of tempered glass, it shows high scratch resistance, and is also fireproof and waterproof.

Smart light

The WiFi light switch from NEO is an innovative solution that you can operate by touch or wirelessly using a 2.4GHz Wi-Fi connection. It works both during the day and night. But fear not, it will not negatively affect the quality of sleep of the household members. At night, a special LED backlight indicates which switch is active (pink light) or inactive (blue light). NEO smart light is a smart and convenient way to control lighting in the modern home.

Fast and safe operation

The NEO sensor will give you fast and safe operation. You'll connect to it via a 2.4GHz Wi-Fi network, which guarantees a more stable, faster and convenient operation. Thus, you can easily control your device with your phone. What's more, the panel exhibits IP66 water resistance, so you can install the switch even in the bathroom without any problems.

Easy installation

Afraid of a difficult and lengthy installation? With NEO devices you are not! The whole process is very fast and simple. Just three steps are enough to connect to the switch. First, connect to a Wi-Fi network, then download the app and add the device. What's more, the switch shows low power consumption. That's all to enhance the user experience.

Long and comfortable operation

The NEO light switch is a combination of safety and user comfort. For added protection, it was created with tempered glass, which is fireproof and, moreover, shows scratch and moisture resistance. It supports platforms such as Tuya Smart, Amazon Alexa, Google Assistant and Tmall Genie, making it even easier and more enjoyable to use.

More possibilities

The WiFi light switch from NEO offers many features, giving users more control over the lighting in their home. Using a dedicated app, you can control the switch and monitor its status. Collaboration with other devices and sensors allows you to create smart scenes and schedules, making your home even more functional. In addition, thanks to remote control, you can turn off the lights via the app, even when you are away from home, which contributes to energy savings.

□ Producer

□ NEO

□ Model

□ NAS-SC02WE

□ Rated voltage

□ AC 85-250 V, 50/60 Hz

□ Number of channels

□ 2

□ Maximum current

□ max. 5 A (1 output)

□ Wireless connection

□ 2.4 GHz

□ Wireless distance

□ up to 40 m

□ Working temperature

□ 0°C~40°C

□ Working humidity

□ 0%~90%

□ Material

□ Tempered glass

□ Protection

□ IP66, fireproof, scratch resistant

□ Dimensions
