Precision Screwdriver HOTO QWLS004, 24 in 1 (Red)

HOTO QWLS004 precision screwdriver, 24 in 1 (red)

Looking for a reliable tool for small repairs or DIY? The HOTOA precision screwdriver will be perfect for you! It will provide you with a high level of comfort even during long use and, what's more, it is extremely durable as it is made of high-quality aluminium alloy. The set includes 12 double-sided bits (24 types), which you can safely store in the magnetic box inside the screwdriver.

Functional and handy

The HOTO precision screwdriver was designed with user-friendliness in mind and is therefore equipped with a magnetic tip. This enables you to insert and remove bits with ease. What's more, the screwdriver is characterised by its ergonomic design, which means that it fits securely in your hand and does not slip out during use. It has the appearance of a ballpoint pen and weighs just 60g. What's more, you don't have to worry about losing your bits, as they are easily stored in the magnetic box inside the screwdriver.

Bit set

In the set with the screwdriver, you will also find 12 double-sided bits. This means that you get 24 of the most popular types. They exhibit a hardness of up to 60 HRC and, what's more, are made of high-quality S2 steel. This makes them robust and resistant to mechanical damage, wear or rust. They will work perfectly when repairing laptops, watches, games consoles, toys, drones and many other devices.

Included

Precision screwdriver
