IP Indoor Camera Arenti Indoor1 2K 5G

Ref: 6972055681258

IP Indoor Camera Arenti Indoor1 2K 5G

Arenti Indoor1 WiFi 2K 5G IP camera

How to take care of security in your home in an easy way? Install an indoor camera in it! Arenti Indoor 1 is a device that guarantees Ultra HD quality images! The camera is equipped with a motion and noise detector, allows two-way audio transmission and supports Android and iOS. These features guarantee full control over what is happening in your apartment, even when you are not there. Just glance at your phone's screen to make sure your home is safe. The Arenti brand is a winner of the 2021 Red Dot Award, a design award. The Indoor 1 is distinguished by its clever design, allowing you to position the camera any way you want and aim it at the area you are interested in. Set it up as you like and finally be at ease!

Intelligent motion and noise sensor

The Indoor 1 camera is equipped with motion and noise sensors, which are part of an intelligent system for detecting unwanted events. When the camera detects human movement or records noise, it automatically starts recording a short 180-second footage, which you can then find on an SD card or in the cloud. What's more, the app will immediately notify you of the event. This will help you quickly catch unwanted situations and even prevent them!

Ultra HD image quality

The device is equipped with a lens with a viewing angle of 100°. It provides crystal clear Ultra HD quality images. This will help you better

understand what's going on in your home and easily identify the person or animal within the camera's range. The equipment also uses infrared, which means that it guarantees great visibility also at night, at a distance of up to 10 meters. Regardless of the time of day, you will see every detail of what is happening within the camera's range.

Choose the best setting
You decide what area is most important to you. The camera works wirelessly, so you can easily install it anywhere. The device supports custom setting of the motion detection area, which means you can fine-tune the camera's field of view in which it should detect motion, thereby increasing the effectiveness of monitoring. With Arenti, you will gain confidence that your home is safe.

Two-way communication
Indoor 1 allows for two-way audio support, which means that you will not only hear what is happening within the range of the device, but also address directly the person in the room where the camera is located. Such a solution will allow you, for example, to call the children to dinner without raising your voice or scare off a possible burglar. No matter where you are, have control over what is happening in the apartment!

All the information on your phone
The Arenti Indoor1 IP camera is hardware that works with iOS and Android, which means you can monitor the situation within the camera's range in real time using your phone. The camera is compatible with Amazon Alexa and Google Assistant, so you will also operate it by voice. The app will notify you whenever the camera detects motion or noise. Got a bad feeling? Just take a quick glance at your phone to make sure your home is safe and regain peace of mind.
