IP Outdoor Camera Arenti Outdoor1 2K 5G

Ref: 6972055686383

Arenti Outdoor1 WiFi 2K 5G outdoor IP camera

Looking for a state-of-the-art piece of equipment that will allow you to easily monitor what's happening near your property? The Outdoor1 outdoor camera is a device that captures Ultra HD quality images, is equipped with a smart motion sensor, performs well at night and allows you to record clear images to a memory card or the cloud. It supports two-way audio, works with iOS and Android, and operates wirelessly. All this will allow you to quickly inspect the area around your home and finally feel completely safe. The camera's waterproof rating is IP65. Arenti is the winner of the Red Dot Award 2021, a prestigious design award.

Clear image at any time

The camera provides Ultra HD video, which means you will see clearly and in detail everything happening near your home on your phone. This solution will allow you to quickly identify people or pets on your property. What's more, the device works perfectly at night - it uses infrared, so it guarantees effective monitoring even in the greatest darkness. When motion is detected at night, the device switches to full color mode, so you get images in the best quality, regardless of the conditions. With Arenti you can sleep soundly!

Intelligent motion sensor

The device uses a motion detector around the clock. It allows the camera to automatically detect motion in the camera's field of coverage. This solution minimizes the amount of recorded material, thus saving space on the card and in the cloud. The recording will

create only when something happens near the camera, so you can quickly get to the footage you are interested in. What's more, the device allows you to adjust the range of the motion sensor yourself - you decide what area is important to you.

Works with popular systems

The Outdoor 1 camera operates in the 2.4 GHz and 5 GHz bands and is compatible with iOS, and Android, which means you can easily connect it to most mobile devices. It supports Amazon Alexa and Google Assistant voice assistants, so you can effortlessly operate it with a simple voice command. The device records recordings on an SD card (up to 256 GB) or in the cloud - choose for yourself where you want to store the footage.

Fast two-way communication

Arenti offers a convenient solution, which is two-way audio support. You will not only see, but also hear everything that happens within the camera's range. What's more, you will easily broadcast a message, to the person in the monitored area. Ask the courier to leave a package on the stairs or call the kids for dinner without having to leave the house.

Wireless operation

You can easily place the camera anywhere - its installation will not be a problem at all. It works wirelessly, so you can access the camera image even when you are not at home. What's more, the protection rating is IP65. The camera is resistant to high and low temperatures and is not afraid of rain, snow or wind. Regardless of the conditions, you can monitor your property without leaving your warm bed!

Included
