Remax Wireless Keyboard JP-1 (white)

The Remax JP-01 wireless keyboard features a compact design and connects to 3 devices simultaneously. What's more, it is powered by 3 AAA batteries and has a dedicated stand for a tablet or smartphone. In addition, it works quite quietly and the key life reaches 10 million clicks.

Several ways to connect

The Remax JP-1 connects to compatible equipment via Bluetooth or in the 2.4 GHz band, so you don't have to worry about a tangled or too short cable. What's more, you can connect it to 3 devices simultaneously and conveniently switch between them. The keyboard works with smartphones, tablets, laptops and desktop computers.

Comfortable working

Enjoy comfortable use for long periods of time. The keyboard offers high, round keys that are quiet in operation. What's more, it has function keys so you can easily operate your music player or adjust the screen brightness. In addition, the special stand makes working with a tablet or smartphone easier.
