

Filter 1-5 stop Freewell Sherpa True Color VND for the iPhon

Ref: 6972971860119

Filter 1-5 stop Freewell Sherpa True Color VND for the iPhone

Freewell Sherpa True Color VND 1-5 Degree Filter for iPhone 13 / iPhone 14

Designed for the Sherpa series cases, Freewell's True Color Variable ND 1-5 Stop filter provides exposure reduction from 1 to 5 stops, allowing you to use wider aperture settings for shallower depth of field or motion blur. To change the effect, simply twist the filter ring. Thanks to True Color technology, this filter renders colors faithfully while resisting dust, scratches and greasy stains.

Use with Sherpa case

If you use a Sherpa case, this filter is for you! It is compatible with the case suitable for iPhone 13 / iPhone 14 and mounts magnetically. So you can mount or replace the filter in no time and experiment with interesting effects for your photos.

Protective coating

Made of the highest quality materials, the filter has a special protective coating that does not affect the color optics of the materials created. The filter is therefore resistant to dust and scratches, as well as fingerprints and the formation of greasy stains, so keeping it clean is no problem. At the same time, it provides the best image quality and allows you to maintain neutral image colors. Your photos will be stunning!
