

Filter Set Freewell Standard Day for DJI Avata Drone (4-Pack)

Ref: 6972971860270

Filter Set Freewell Standard Day for DJI Avata Drone (4-Pack)

Set of 4 Freewell Standard Day filters for DJI Avata

In this set you will find 4 ND filters created specifically for DJI Avata drones. The package is suitable for making great quality footage on both cloudy and sunny days. It includes ND8, ND16, ND32 and ND64. Each of them will allow you to reduce the amount of light entering the sensor, while maintaining the neutral colors of the photos taken. The product features a sturdy design, is extremely lightweight and will not upset the balance of your drone, so you can use them without worrying about your device.

Phenomenal landscape photos

With ND optical filters, you can reduce the amount of light reaching the sensor without affecting the colors of your photos. They will work great if you need to increase the exposure time or improve the depth of field, while maintaining the right exposure. In the set you will find a filter in 4 different degrees of light reduction: ND8, ND16, ND32, ND64. which will work well both during cloudy and sunny days. With their use you will get, among other things, interesting effects of blurring water or clouds in landscape photos. Experiment and create breathtaking photographs!

Protective coating

Made of the highest quality materials, the filters have a special protective coating that does not affect the color optics of the materials created. The filters are therefore resistant to dust and scratches, as well as fingerprints and the formation of greasy stains, so keeping

them clean is no problem at all. At the same time, they provide the best image quality for outdoor photography and allow you to maintain neutral image colors. Your photos will be a stunning reproduction of reality!

GimbalSafe technology

Are you worried that the filters will negatively affect the dynamics of the flight? Don't be! The filters have been designed with the DJI Avata in mind and have undergone a number of tests that confirm their safe use. The frames of the filters are extremely lightweight, so they do not disturb the balance of the device. Fly freely and create exceptional photos with Freewell!
