Smart Zigbee Wireless Door/Window Sensor Sonoff SNZB-04

Smart Zigbee Wireless Door/Window Sensor Sonoff SNZB-04

Sonoff SNZB-04 ZigBee is a sensor, which provides greater security of the apartment against burglary. The sensor sends a notification to the phone every time a door/window is opened or closed. Take care of your security and enjoy the peace of mind in your apartment.

Many possibilities

The sensor allows you to control your devices through ZigBee Bridge - unlimited possibilities will provide you with excellent convenience. Simply connect the sensor to the device, it will be turned on or off every time you open or close the door.

Full security

When you connect the camera to the sensor, your voice will be recorded and turned on as soon as an uninvited guest appears in the apartment, not only scares the thief, but also records any movement. As soon as this happens, a notification is sent to your phone.

Low battery indicator

The application sends out notifications about low sensor battery level (10%). You don't have to worry about the low battery level of your device - you'll always be up to date with the app.

Trouble-free installation

The mounting tape on the back of the sensor is strong and flexible, allowing for easy and quick installation on any surface of the room.

Model

SNZB-04

The battery

3V (CR2032)

Weight

Sensor-18g Magnes-5.3g

Operating temperature range

-10 ° C do + 40 ° C

WiFi

IEEE 802.15.4 (ZIGBEE)

Material

PC V0
