

Filters VND Freewell for DJI Mavic 3 (2-Pack)

Filters VND Freewell for DJI Mavic 3 (2-Pack)

Ref: 6972971860645

Freewell set of two VND filters for DJI Mavic 3

Designed for DJI Mavic 3 drones, the True Color Variable ND 2-5 Stop and ND 6-9 Stop filters provide exposure reduction from 2 to 9 stops, allowing you to use wider aperture settings for shallower depth of field or motion blur. To change the effect, simply twist the filter ring. Thanks to True Color technology, these filters render colors faithfully while resisting dust, scratches and greasy stains. What's more, they are extremely lightweight and do not interfere with the drone's flight dynamics.

Protective coating

Made of the highest quality materials, the filters have a special protective coating that does not affect the color optics of the materials created. The filters are therefore resistant to dust and scratches, as well as fingerprints and the formation of greasy stains, so keeping them clean is no problem. At the same time, they provide the best image quality and allow you to maintain neutral image colors. Your photos will be stunning!

Included

Filters

case

☐Manufacturer

- Freewell
- Model
- FW-MC3-VND
- Compatibility
- DJI Mavic 3, Mavic 3 Cine, Mavic 3E
- Filter type
- ND 2-5 Stop ; ND 6-9 Stop
- Optical coatings
- Dustproof, scratch-resistant, oil-resistant
