Ref: 6976037360551

Smart WiFi Wall Socket Avatto N-WOT10-EU-B TUYA (black)

Smart WiFi Wall Socket Avatto N-WOT10-EU-B TUYA (black)

Create for yourself a smart home where you live well. The Avatto smart wall socket will allow you to remotely control the devices connected to it - for example, using the TUYA / Smart Life app or voice assistant (Amazon Alexa, Google Assistant). Create work schedules, use timers and share control with other family members! The product is also very easy to install and compact.

Remote control

Are you already on your way to work and can't remember whether you turned off the TV before leaving? Now all you have to do is reach for your smartphone! The Avatto socket is compatible with the TUYA / Smart Life app, so you can remotely control the equipment connected to it. So you can turn the selected devices on or off at any time!

Even more possibilities with the app

If you want, share your appliances in the app with the rest of your family members, so that they too gain the ability to control them remotely. You can also create timers and work schedules, as well as connect the outlet to other smart devices in your home and automate their operation. Make the lamp turn on at 6:30 a.m. when you get up, and the TV and living room lights turn on when you enter the house after coming home from work!

Control with voice commands

Free your hands and enjoy even more convenient control of your devices. Are you sitting comfortably on the couch, don't have your smartphone handy, and want to turn on the lights? Or maybe you are just cooking something and need to quickly start the microwave? No problem - the outlet is compatible with Google Assistant and Amazon Alexa voice assistants. Now all it takes is a simple command to turn on or off the appliance of your choice!

Thoughtful design

High-quality materials (such as tempered glass) were used to make the outlet, which translates into its durability. The product is also very easy to install and clean. What's more, you can attach it directly to the wall, so it won't stick out and will take up less space. There is also a special locking device that will allow you to childproof the socket.

Brand

Avatto

Model

N-WOT10-EU-B

Color

Black

Input voltage

100-240 V, 50/60 Hz AC

Max. load

16 A 240 V AC

Maximum power

3500 W

Grounding

Standard

Wi-Fi standard

2.4 GHz Wi-Fi IEEE 802.11 b/g/n

Power consumption during operation

< 1,2 W

Power consumption in standby mode

< 0,6 W

Lifetime

Approx. 100,000 uses

Material

Tempered glass + PC
