

Adapter PGYTECH MagSafe for Osmo Mobile

Adapter PGYTECH MagSafe for Osmo Mobile

Ref: 6970801339392

PGYTECH MagSafe adapter for Osmo Mobile

Want to connect your phone to the DJI Osmo series stabilizer? Now you can do it easily with the help of PGYTECH adapter. Its installation will not cause you any trouble, and what's more, it is distinguished by a strong magnet. You also don't have to worry about the appearance of your smartphone, as the adapter will perfectly blend in with its design.

Reliable magnet

The PGYTECH adapter was created with excellent quality in mind, so what makes it stand out is the strong magnet. This allows you to quickly mount it on your phone. What's more, the DJI Osmo Mobile stabilizer will easily harmonize with iPhone's MagSafe function.

Comfort of use

This accessory is not only highly functional, but also comfortable to use. With the PGYTECH adapter, you can quickly mount and remove your phone from the DJI stabilizer. Moreover, its thickness is only 5 mm, so it will not increase the weight and volume of your smartphone. It will also be easy to carry.

Thoughtful design

The PGYTECH adapter was made with the utmost care, so its contact surface with the phone is made of high-quality rubber. This makes

the accessory damage-free. Moreover, the adapter is durable and strong, so it can serve you for a very long time.
