Filter CPL PGYTECH DJI Mini 3
Filter CPL PGYTECH DJI Mini 3

## PGYTECH DJI Mini 3 CPL Filter

Want to eliminate glare from your photos, but still want to keep the colors vibrant, natural and stunning? Try a CPL filter from PGYTECH. This product is made of high-quality Japanese AGC optical glass and aluminum, which makes it very lightweight yet durable. Moreover, by rotating it, you can change the polarization effect, and special protective coatings protect it from dirt and damage. Its installation won't be a problem for you, as it is perfectly matched to the DJI Mini 3.

## Excellent image quality

Do you want to create stunning skyward photographs? It's easier than you think! The filter is made of AGC multi-cut Japanese optical glass, so it perfectly reduces glare from reflective surfaces like water and glass windows. What's more, it increases color saturation and makes images more vivid and expressive. This will be useful for capturing the contrast between blue skies and white clouds. What's more, to change the polarizing effect, simply rotate the filter.

## Durable and easy to clean

This product is distinguished by its extreme durability and ease of cleaning. Thanks to its 2-sided coating, it is waterproof, and what's more, it also repels grease. This makes it easy for you to keep it clean. It will serve you for a long time, as it also shows scratch resistance.

Mobilemax - Gadgets and Accessories Rua Vasco da Gama n61, 8005-411, Estoi - Faro, Portugal (Continente) Telefone: +351962484153 (Chamada para rede móvel nacional) Email: info@mobilemax.pt

## Made for DJI Mini 3

You don't have to worry about the accessory weighing down your drone and affecting its flight quality. The filter is extremely lightweight and durable, thanks to its frame made of aluminum. It also stands out for its resistance to corrosion. What's more, it is perfectly matched to the DJI Mini 3, so it won't disturb its balance and will allow you to have a smooth and exciting flight.
