Smart Switch Module WiFi Avatto N-WSM01-2 TUYA

Ref: 6976037360599

Smart Switch Module WiFi Avatto N-WSM01-2 TUYA

Smart Switch Module WiFi Avatto N-WSM01-2 TUYA
Avatto's smart switch module will allow you to conveniently control the lighting in your home. It is compatible with the TUYA / Smart Life app, so you can control it remotely, from anywhere. It also works with Amazon Alexa and Google Assistant voice assistants. At the same time, the product is very easy to install. Create work schedules, set timers and share your devices with other family members - with Avatto you can say goodbye to limitations! The switch connects via Wi-Fi and is 2-channel.

Remote control with an app
Not sure if you turned off the lamp before leaving for work? Now you can do it with your smartphone! The Avatto switch is compatible with the TUYA / Smart Life app, so you can control the light remotely - just a few clicks! Do you want the rest of the household to also be able to control the lighting remotely? No problem - the app allows you to share selected devices.

Get even more options
Adjust the lighting in your home to your lifestyle. The app allows you to use timers and set operating schedules for selected appliances - make the light automatically turn off at 11pm when you go to bed, and turn on at 7am when you get up. You can also connect the product with other devices or sensors and create a smart scene. It is also possible to group control several switches at the same time.

Simple installation - hassle-free operation
The switch is very easy to install - it won't cause you any problems or take too much time. What's more, you can easily operate one lamp with 2 switches - such a solution is great, for example, near the stairs. Conveniently turn on the light on the first floor and turn it off on the first floor - so you can safely go upstairs and avoid an accident!

Compatibility with voice assistants
Free your hands and enjoy even more freedom. The switch is compatible with Google Assistant and Amazon Alexa smart assistants. This means you can control your lighting with your voice! Now you only need a few words to turn the lights on or off, for example. Are you lying in bed and want to turn off the lamp, but don't have your phone handy? Issue a simple command and watch the lighting adjust to you!

Brand
Avatto
