Universal Remote Control IR WiFi Avatto S16 TUYA

Universal IR WiFi remote control Avatto S16 TUYA

 Forget about stacks of remote controls for your TV, roller blinds, garage door, air conditioning, or lighting. Avatto S16 is a universal remote control that will replace all others, providing you with convenience and saving space. It guarantees fast and precise communication with equipment via infrared at a distance of up to 10 meters. What's more, it supports the dedicated TUYA/ Smart Life app, so you can control your devices remotely using your phone or tablet. The remote control is distinguished by its robust design and handles great in almost any conditions!

Compatible with a wide range of devices

 Avatto S16 is compatible with many devices. The extended IR code library covers more than 5000+ IR devices, such as TVs, air conditioners, set-top boxes, fans or lights. About 98% of remote control devices on the market work with 433 and 315 MHz protocol, so S16 is an indispensable tool for smart home control. With S16 you save space and gain the convenience of controlling various devices with one controller!

 The remote control supports 2.4 GHz Wi-Fi connectivity, which means you can remotely control your devices with your smartphone or tablet. Once connected to an app, you can use smart assistants such as Amazon Alexa or Google Home and control the appliances in your home with simple voice commands. This is an extremely convenient solution that frees you from having to use a remote control or other controller. Avatto S16 is a convenient, future-proof solution that allows you to easily and intuitively manage your smart home.

Versatile control with stable signal
 Avatto S16 offers an infrared range of up to 10 meters, allowing you to control your devices even from the farther end of the room. Equipped with omni-directional infrared transmitters, it picks up your commands over a 360° range. This means even more convenience and flexibility in controlling devices in your home.

Robust design
 The device operates over a wide temperature range (0°C to 60°C) and can handle high humidity, making it great for a variety of conditions. As a result, you can be sure that the Avatto S16 will work smoothly no matter where you need it.

Share access
 The remote control allows easy operation by other family members as well. In the mobile app, you can allow other household members to access device management. By choosing Avatto S16, you will make your home, even more functional and friendly for all its inhabitants. Bring innovation into your life and indulge in the convenience that smart technology offers.
