

Electrode Holder Deli Tools EDL23300A

Electrode Holder Deli Tools EDL23300A

Ref: 6975495593808

Deli Tools EDL23300A electrode holder

This practical tool for holding electrodes during welding is made of durable DMC insulating resin, which guarantees durability and resistance to mechanical damage. The Deli Tools holder is designed for electrodes with a diameter of 4.0-6.3 mm, which allows flexibility and adaptation to different types of welding. It is distinguished by its ergonomic shape and comfortable handle, which ensures a secure and stable grip on the tool while working.

Best materials

High-quality materials were used to make the handle, so you don't have to worry about safety during welding. The conductive side was created using pure copper, so it provides the required conductivity. What's more, thanks to its well-thought-out design you will adjust its size in the range of 4.0-6.3 mm. The handle of the handle has an additional non-slip coating, resistant to high temperatures and damage. Ensure safe and comfortable work in your workshop and bet on Deli Tools!

Manufacturer

Deli Tools

Model

EDL23300A

Mobilemax - Gadgets and Accessories
