

Charger Green Cell GC VitalCharger for batteries AA AAA R6 R

Ref: 5907813961328

Charger Green Cell GC VitalCharger for batteries AA AAA R6 R

Green Cell GC VitalCharger for AA AAA R6 R03 Ni-MH rechargeable batteries

Give your devices uninterrupted access to energy with the GC VitalCharger universal rechargeable battery charger equipped with Micro and USB-C ports. Do away with disposable alkaline batteries and contribute to environmental protection.

Features of the VitalCharger

The Green Cell charger is equipped with Micro USB and USB-C ports, making it suitable for classic and modern fans. LEDs, on the other hand, will let you know what stage of charging each rechargeable battery is at. You can also compose your own set and charge between 1 and 4 AA or AAA batteries simultaneously. In addition, the clever design prevents the sticks from falling out and allows them to be inserted and removed easily. The robust ABS plastic housing, on the other hand, has been fitted with non-slip features.

The choice is yours

You can use the GC VitalCharger with any power source, whether you have a mains charger, car charger, laptop or powerbank. Plug it into a USB port and the charging process will start automatically.
