Wireless earphones Remax sport Air Conduction RB-S7 (white)

Remax Air Conduction wireless sports headphones RB-S7 (white)

Are you looking for practical headphones to listen to music during long workouts at the gym? The Remax Air Conduction headphones are sure to meet your expectations! Thanks to the innovative Air Conduction technology, you can enjoy the clear and natural sound of your favourite songs. The long-lasting battery allows for up to 9 hours of uninterrupted use and Bluetooth 5.3 connectivity ensures a stable connection to your chosen device.

Rediscover your music

Enjoy exceptional sound that lets you hear even the smallest details of your favourite music tracks. Innovative Air Conduction technology allows sound to be transmitted directly to the ear, making the sound more natural. Remax headphones will give you an unforgettable acoustic experience!

Up to 9 hours of operation

No more worrying about your headphones unexpectedly discharging during a long workout! The Air Conduction model allows you to play music for up to 9 h. They also support the fast charging function, so you only need 5 minutes of charging to keep them running for another 30 minutes. Their standard charging won't take you long either - they'll be ready for use again after about 1.5 h.

Stable connection to your device

Say goodbye to lag issues and other connection problems. Remax headphones use the latest Bluetooth 5.3, which provides fast, stable and reliable signal transmission up to 10m. What's more, you can connect them to 2 devices simultaneously for even more convenience.
