Obudowa komputerowa Darkflash DK415 + 2 wentylatory (czarna)

Darkflash DK415 computer case + 2 fans (black)

Design the computer of your dreams with the Darkflash DK415M. The computer case works with a variety of components and offers several ports including, USB3.0 and USB2.0. Moreover, it provides an efficient cooling system to protect your hardware from overheating. In addition, metal mesh and tempered glass panels give the product a stylish look.

Various expansion options

The Darkflash DK415M computer case is compatible with motherboard standards such as Micro ATX and ITX, and also allows the installation of a graphics card with a maximum length of 410 mm and cooling with a maximum height of 165 mm.

Optimal cooling

Dynamic gameplay, demanding software - the Darkflash DK415M is ready for it. The case allows you to mount 11 120 mm fans or 4 140 mm fans and 120/240/280/360 mm water cooling.

Thoughtful design

The side panel of the case was created from tempered glass, emphasizing the gaming nature of the configuration. The metal mesh front and top panel, on the other hand, features a stylish finish. The Darkflash DK415M also allows you to mount HDD/SSD drives and offers 5

slots for expansion cards. In addition, it is equipped with USB3.0, x2 USB2.0 ports and HD Audio, Power, Reset and LED buttons.
