

Cable USB - Micro USB Green Cell GC Ray 200cm, orange LED, w

Ref: 5903317229766

Cable USB - Micro USB Green Cell GC Ray 200cm, orange LED, w

Green Cell GC Ray USB-A/micro USB cable

The GC Ray USB-A/micro USB cable with a length of 200 cm allows instant charging and data transfer. It is distinguished by its orange backlighting and support for fast charging protocols. The product is made of durable materials, which translates into high durability.

Fast power and data transfer

Thanks to fast charging protocols such as Quick Charge 3.0 and Ultra Charge, the Green Cell cable will renew your smartphone's energy surprisingly quickly. What's more, it enables data transfer speeds of 480 Mbps. You no longer have to wait long for your files to be transferred to your chosen device.

Modern design

What sets the GC Ray cable apart is the subtle orange illumination of the micro USB plug. Thanks to it, you can easily locate your phone, even in unfavourable lighting conditions. What's more, the length of the cable is up to 200 cm - so you can use your smartphone comfortably, even when it is plugged in for charging.

Wide compatibility

The GC Ray is compatible with devices equipped with a micro USB port. The Green Cell cable will be the perfect choice when you want to

renew the energy of your smartphone, tablet, headphones and more!
