

Superfire bike flashlight BL14

Superfire bike flashlight BL14

## Superfire BL14 bicycle flashlight

Take care of your safety while cycling! Superfire BL14 bike light generates light at 400 lm and allows you to choose from 3 light modes. Thanks to its durable construction, it will serve you well for a long time, and the built-in battery provides up to 5,5 hours of operation. You will also successfully use it as a regular flashlight.

## Safe driving in the dark

Increase your level of visibility during a night bike ride. The flashlight provides stable illumination with a brightness of 400 lumens. Its range is up to 100 meters, so it will light your way perfectly! The BL14 also offers 3 light modes - Strong Light (400 lm), Low Light (200 lm) and Warning Flash (400 lm). So you can successfully adjust its performance to your needs!

## Durable design

Riding in rainy weather is not a problem for you? Choose a flashlight that will match you! The Superfire BL14 flashlight is distinguished by its IP54 waterproof rating, so even rain can't scare it. High-grade aluminum alloy was used in its construction, which is characterized by above-average durability.
