Cable USB Micro Remax Zeron, 1m, 2.4A (blue)

The Remax Zeron is a high quality cable designed for fast charging and file transfer. It has a current rating of 2.4A and transmission speeds of up to 480 Mbps. What's more, the durable TPE and PE materials provide impressive durability. An additional advantage of the product is the built-in smart chip, which automatically adjusts the charging parameters to the requirements of the connected equipment.

Fast charging, fast data transmission

With a current of up to 2.4 A, the cable enables fast charging of selected devices. The Remax Zeron is also ideal for those in need of fast file transfer. The product provides a transmission speed of up to 480 Mbps, allowing large amounts of photos or videos to be copied between devices in no time. For example, to transfer 1GB of files, you only need about 30 seconds!

Robust design

The cable is distinguished by its robust construction, which translates into durability and strength. The TPE and PE materials not only provide flexibility and comfort, but also protect the product from mechanical damage, including abrasion, breakage and twisting. As a result, the cable is resistant to wear and tear and can serve you for a long time. In addition, its length of 1 m provides plenty of freedom of use.

Brand

Remax

Name

Zeron Series 2.4A Elastic TPE Fast Charging Data Cable

Model

RC-179m

Colour

Blue

Type

USB-A to micro USB

Current

2.4 A
