Choetech B664 Mini Power Station, powerbank 5000mAh 65W (bl

Mini power station, powerbank Choetech B664 5000mAh 65W (black)

Do you often go on business trips? Or are you going on a camping trip? Do you still want your equipment to be ready for use at all times? Choetech mini power station can help you with this! It stands out with its 50000 mAh capacity and several ports, so you can charge multiple devices at the same time. What's more, it's also equipped with a flashlight, making it your inseparable companion during camping trips.

Many possibilities

The Choetech mini power station opens up many possibilities for you. You no longer have to choose which of your devices to charge first, as it has been equipped with several ports. Here you will find 3 output ports - 1 x USB-C and 2 x USB, as well as 2 input ports - USB-micro and USB-C. This makes it so you can charge your phones or tablets at the same time.

Great power

The Choetech Powerbank is a great-powered device, ideal for quickly charging your devices. It contains a powerful 50000 mAh battery, so you can enjoy a long runtime without charging. In addition, the Choetech mini power station supports PD65W fast charging, allowing you to expressly recover the power of your smartphone, tablet or camera. It's the perfect solution for those who need a reliable and efficient power station when traveling, working or on vacation.

Comfort of use

Choetech device is not only a functional device, but also a comfort of use. You no longer have to wonder what equipment you can charge with it, as its compatibility is very wide. You can connect phones, tablets, cameras, speakers and even controllers to it without any worries! What's more, this powerbank is equipped with a flashlight with the ability to change light modes, so it will be an indispensable companion for camping trips or night excursions.

Safety guarantee

Choetech mini power station is not only a powerful power source, but also a guarantee of the safety of your devices. With multiple protections, such as temperature protection, over-current protection, short-circuit protection and high voltage protection, the Choetech mini power station protects your equipment from dangerous consequences, such as overheating, battery damage or short circuit. Reliable protections ensure the safety of charging your smartphone, tablet or camera in all conditions and situations.
