

Wall charger Remax, RP-U16, USB (white)

Ref: 6954851229858

Wall charger Remax, RP-U16, USB (white)

Remax mains charger, RP-U16, USB (white)

Designed for QC 3.0 fast charging, this network charger from Remax guarantees protection against electrical hazards such as overheating, overcharging, and short circuit. It offers a universal USB port, so it stands out for its wide compatibility. It was created from high-quality materials, resistant to high temperatures. At the same time, it is lightweight and portable.

Safe charging

The charger supports the QC 3.0 fast charging protocol. It guarantees stable voltage and power supply at a lower temperature, so you don't have to worry about short-circuiting, overcharging or overheating your devices. Shorter charging time has a positive effect on battery life, so by using Remax RP-U16 you take care of your equipment.
