

Wall charger Remax, RP-U68, USB-C, USB, 20W (white)

Ref: 6954851272151

Wall charger Remax, RP-U68, USB-C, USB, 20W (white)

Remax mains charger, RP-U68, USB-C, USB, 20W (white)

Remax RP-U68 is a charger for special tasks. It supports popular fast charging protocols (PD, QC), provides 20W of power and supports input voltage in the range of 100-240V. All this makes this model stand out for its wide compatibility and provides full protection for connected devices. In addition, it is small and convenient to transport and store.

Reduces charging time

The product supports PD and QC 3.0, which means it quickly and safely charges mobile devices from popular manufacturers. It takes as little as 30 minutes to replenish an iPhone 12's power to 50%. The charger automatically recognizes the connected equipment and adjusts the power supply and voltage, so you don't have to worry about short circuiting or overheating.

Wide compatibility

At your disposal are USB and USB-C ports, which will allow you to charge 2 devices simultaneously. Both ports are designed for fast charging and provide wide compatibility with popular devices. What's more, the charger supports a wide range of line voltage, making it ideal for travel.

Manufacturer

- Remax
- Model
- RP-U68
- Material
- Fire-resistant PC
- Weight
- 43 g
- Dimensions
- 42.6 x 27 x 57.9 mm
- Input voltage
- AC 100-240V ; 50/60 Hz 0.6A (max)
- Output voltage
- USB 5V/3A; 9V/2A; 12V/1.5A (max); USB-C 5V/3A; 9V/2.22A; 12V/1.67A (max)
