Powerbank Cygnett Magnetic 5000mAh 18W (black)

Are you going on a trip? Or are you planning to spend the whole day away from home? Be sure that your phone will not discharge at the least opportune moment! Cygnett Magnetic powerbank supports wireless charging - thanks to built-in magnets it is compatible with MagSafe technology. It provides high power and has a capacity of 5000 mAh. It's also lightweight and compact enough to keep on hand at all times!

Fast and reliable wireless charging

The powerbank is equipped with high-grade magnets that make it compatible with MagSafe technology and can provide your smartphone with the optimal position for wireless charging. What's more, the power of up to 7.5 W allows you to charge your phone in a very short time. No need to wait too long! The product is also compatible with official MagSafe accessories.

Mounting ring included

Don't have a phone with a built-in magnet? No problem - you can still use the charger comfortably. The kit includes a special ring - just attach it to any smartphone that supports wireless charging. This way you can enjoy fast magnetic charging in almost any situation! Such a solution will work well, for example, for iPhone 11 or Samsung S series.

Always at hand

Going out of the house? Stow the powerbank in your backpack or purse - it won't take up too much space. The product is extremely light and compact, so you can always carry it with you and use it to charge your phone whenever you need to! The device is small enough that it won't even cover your smartphone's cameras while charging. The powerbank is also distinguished by its stylish, modern design.

Capacity of 5000 mAh - charging via USB-C

The capacity of the powerbank is 5000 mAh - enough to charge your phone even several times. What's more, the built-in USB-C port allows you to charge the product quickly - with a power of up to 18 W, it won't take too long. No more dragging endlessly waiting for your equipment to be ready for use!
